

AccuLock™ R Consumables

Issued June 2024 • Index No. ALR/2.4

MIG (GMAW) Welding Consumables

Quick Specs

Applications

Automotive
Heavy Equipment
Manufacturing

System Components

Nozzles
Gas Diffusers
Contact Tips
QUICK LOAD® Liners

Compatible With

TOUGH GUN® Robotic
Air-Cooled Guns
Tregaskiss® Robotic
Water-Cooled Guns
Tregaskiss® Fixed
Automatic Guns

Wire Sizes

0.030" to 3/32"
(0.8 to 2.4 mm)

It all comes together with AccuLock

In robotic MIG welding applications, MIG gun consumables require frequent replacement, contributing to both planned and unplanned downtime. If you need to increase throughput and efficiency with minimal risk and effort, **it's time to take a fresh look at your MIG gun consumables.**

Longer Tip Life

The contact tip is 60% buried within the diffuser for less exposure to the heat of the weld for longer tip life and reduced replacement frequency.

Upgrading from a copper tip to **AccuLock HDP contact tips** can increase life up to 10x, depending on the application.

Mating tapers on both tip-to-diffuser and diffuser-to-neck connection provide good electrical conductivity.

In most cases, your current tip and diffuser can be replaced with no impact to TCP, making this upgrade **low effort, low risk and high payoff.**

Virtually Eliminates Contact Tip Cross-Threading

AccuLock™ R contact tips concentrically align with the diffuser to eliminate cross-threading and unplanned downtime.

Ease of Maintenance

Innovative QUICK LOAD® liners install from the front of the MIG gun in less than half the time required to install conventional liners.

LONGER TIP LIFE
Coarse thread and long tail on contact tip ensures concentricity and prevents cross-threading

INCREASE UPTIME & THROUGHPUT
AccuLock™ contact tips last longer and are quicker and easier to install

RELOAD UP TO 50% FASTER
Reload liners from the front in less than half the time

Tregaskiss

AccuLock™ R Consumables System

Virtually Eliminate Cross Threading

AccuLock contact tips have a long tail that concentrically aligns with the diffuser before the coarse threads engage. Together, this design makes AccuLock contact tips virtually impossible to cross thread, preventing downtime to troubleshoot weld problems and replace cross-threaded consumables.

Long tail concentrically aligns tip inside the diffuser before the coarse threads engage

The AccuLock R Consumable System is comprised of the following components:

- AccuLock R contact tips and tip tool (see page 4)
- AccuLock R gas diffusers (see page 5)
- AccuLock R nozzles — only 5/8" bore nozzles are currently available (see page 5)
- Optional Accessories — AccuLock R teach pointers (see page 5)
- QUICK LOAD® liners and retainers (see page 6)

Common Contact Tip

Tregaskiss® AccuLock™ R consumables and Bernard® AccuLock S consumables share a common contact tip. If you have a combination of robotic, fixed automatic and semi-automatic guns in your facility, you'll benefit from the reduced costs and simplified inventory.

AccuLock™ R Consumable System

AccuLock R Consumables (Slip-On)

**For all Tregaskiss® robotic and automatic air-cooled MIG guns*

AccuLock R Consumables (Thread-On)

**For all Tregaskiss® robotic and automatic air-cooled MIG guns*

AccuLock™ Contact Tips

Heavy Duty (HD) Copper Contact Tips (Torque all AccuLock contact tips to 30 in.-lbs. (3.5Nm))

Part Number	Description	Qty	Part Number	Description	Qty	Part Number	Description	Qty
T-A030CH**	for 0.030" (0.8 mm)	10	T-A045CH**	for 0.045" (1.2 mm)	10	T-A072CH^	for 0.070" (1.8 mm)	10
T-A035CH**	for 0.035" (0.9 mm)	10	T-A052CH**	for 0.052" (1.3 mm)	10	T-A078CH^	for 5/64" (2.0 mm)	10
T-A039CH**	for 0.039" (1.0 mm)	10	T-A062CH^	for 1/16" (1.6 mm)	10	T-A094CH^	for 3/32" (2.4 mm)	10

^ add "-100" to the end of the above part numbers for quantities of 100.

* add "-1000" to the end of the above HD copper contact tip part numbers for quantities of 1000.

Heavy Duty (HD) Chrome Zirconium Contact Tips (Torque all AccuLock contact tips to 30 in.-lbs. (3.5Nm))

Part Number	Description	Qty	Part Number	Description	Qty
T-A030ZH	for 0.030" (0.8 mm)	10	T-A045ZH	for 0.045" (1.2 mm)	10
T-A035ZH	for 0.035" (0.9 mm)	10	T-A052ZH	for 0.052" (1.3 mm)	10
T-A039ZH	for 0.039" (1.0 mm)	10	T-A062ZH	for 1/16" (1.6 mm)	10

NOTE: add "-100" to the end of any of the above HD chrome zirconium contact tip part numbers listed for quantities of 100.

AccuLock Tip Tool

Part Number	Description	Qty
T-ALTOOL	Tip tool, AccuLock	1

HDP Contact Tips

Engineered with a special alloy that has superior resistance to arc erosion and wear, HDP tips can increase life up to 10x longer than copper and chrome zirconium tips, depending on the application. You can enjoy all the benefits of pulse welding plus dramatically extended contact tip life for increased production throughput. Additional benefits include increased arc stability for improved weld quality and reduced spatter.

Part Number	Description	Qty	Part Number	Description	Qty
T-A035WH	for 0.035" (0.9 mm)	10	T-A045WH	for 0.045" (1.2 mm)	10
T-A039WH	for 0.039" (1.0 mm)	10	T-A052WH	for 0.052" (1.3 mm)	10

NOTE: add "-100" to the end of the above HDP contact tip part numbers for quantities of 100.

0.035" - 0.045"	415-35-6Q	415-35-10Q	415-35-15Q	415-35-25Q	High Carbon Steel - Round Wound
0.045" - 1/16"	415-116-6Q	415-116-10Q	415-116-15Q	415-116-25Q	High Carbon Steel - Round Wound
1/16" - 5/64"	415-564-6Q	—	415-564-15Q	415-564-25Q	High Carbon Steel - Round Wound
0.078" - 3/32"	415-332-6Q	—	415-332-15Q	415-332-25Q	High Carbon Steel - Flat Wound

QUICK LOAD E-Z Feed™ Liners

Wire Size	6 ft Length	10 ft Length	15 ft Length	25 ft Length	Description
0.035" - 0.045"	415-35-062Q	—	—	—	Galvanized - D Wound (requires 415-26 retainer)
0.045" - 1/16"	415-116-062Q	—	—	—	Galvanized - D Wound (includes 415-31 retainer)

QUICK LOAD Liner Retainers; Required for initial installation (sold separately)

Wire Size	Part Number	Description
0.030" - 5/64"	415-26	QUICK LOAD Liner Retainer*
0.030" - 5/64"	415-37	QUICK LOAD Liner Retainer**
0.045" - 1/16"	415-31	QUICK LOAD Liner Retainer (required for 415-116-062Q)
0.078" - 3/32"	415-24	QUICK LOAD Liner Retainer*

*Compatible with Tregaskiss TOUGH GUN® Robotic and Automatic MIG Guns and Bernard BTB, TGX and Clean Air Semi-Automatic MIG Guns

**Compatible with most Tweco® MIG Guns

AccuLock® R Conversion Series

Add our AccuLock R Consumables to your Fronius® style MIG gun. See the chart below for parts needed to upgrade.

Gun Manufacturer	Gun Model	Gun Neck	AccuLock Conversion Diffuser	Neck Insulator	Adaptor
Fronius®	TPSi	Compatible with M12x1.0 thread	D-ATTH-F4C	Not applicable	Not applicable

Fronius is a registered trademark of Fronius® International

QUICK LOAD Liner AutoLength™ System

Pair your QUICK LOAD liner with an AutoLength pin to reap the benefits of the revolutionary QUICK LOAD liner AutoLength system. Minimize downtime, wire feeding and quality issues commonly associated with short liner length. For more information refer to [QUICK LOAD Liners & AutoLength Pins spec sheet](#)

Subject to Change – The information presented in this spec sheet is accurate to the best of our knowledge at the time of printing. Please visit Tregaskiss.com for the most up-to-date information.
